# AN INTRODUCTION TO VILLAGE WINES

We are fully independent, family owned, wine merchants. As our existing customers are aware, we are constantly striving to offer diversity, choice and above all, value for money **without compromising our quality**. To advance this objective we deal, as much as possible on a personal basis, with independent winemakers who bring a welcome individuality to their wines and winemaking, often using organic practices. Many of the wines are imported directly by us, from small estates and vineyards that are not generally available through any major retail outlet. We like to think we are passionate about wine and this underlines our entire approach - **detailed product knowledge, jargon free advice and personal service**. This may seem a novel approach in the world of modern retailing but we like to think it makes a difference to you, the customer.

## FRENCH WINES

### EVERY DAY DRINKING WINES

SV = Single Vineyard DB = Domaine Bottled

Anyone who does the sums involved in bottling, freight, insurance and duty on the one hand and the cost of wine on the other steers well clear of the lower end of the bargain basement. **A poor wine is dear at any price.** We have been very careful to choose a range of wines suitable for every day drinking that justify their prices, meet a consistent high quality and are representative of their region.

The three wines from Claude Serra (nos: 003, 011 and 019) are of particular interest. When we first encountered these wines we were very impressed with the quality and what great value for money they were. It came as no great surprise to learn that Claude Serra, the winemaker, has been a professor at the Montpellier University of Oenology for more than 15 years and is something of an eminence in the Languedoc. Whilst Claude has trained many of the "Rising Stars" of this region most of his energies are devoted to the pursuit of excellence of his own value for money range of wines.

The stylish white wines of the Loire Valley are well known for their excellent qualities. The Sancerre from DOMAINE CHERRIER (No. 036) and the Pouilly-Fume from DOMAINE MONT BEAUVAIS (No. 038) are prime examples of what this region can achieve at its best.

## FINE BORDEAUX WINES

This range of wines reflects, we believe, the outstanding quality and value for money that only direct importing of Chateau Bottled wines can achieve. Many of the chateaux are small family run vineyards where great care has been taken to create high quality complex wines typical of their Appellation. Further to this we have included in our range a selection of Grand Cru Classe and value for money 2nd wines. Often the only difference between the 1st and second wines produced by a Grand Cru Classe Chateau is the age of the vines, in some instances it is a separate property under the same ownership. We have been fortunate to have been able to have secured some older interesting vintages. It is very important to us to capture the individual styles of the many small regions that collectively make up Bordeaux. This individuality is almost impossible to achieve when dealing with a co-operative or large producer.

**BURGUNDY RED A.O.C.**

SV = Single Vineyard DB = Domaine Bottled

*As ever there seems to be no inexpensive route into red Burgundy, even the lesser negociant wines carry heavy price tags. We have therefore (as is our overall policy) developed the range with a strong emphasis on quality single vineyard estate bottled wines, from growers with the highest of reputations. This includes wines from little known regions (Nos: 172 and 175) where value for money can be found.*

188 Nuits Saint Georges Domaine Lecheneaut 2001/04/08 ..... SV DB 39.98

*Lecheneaut bottles direct from cask by hand without any filtering or fining. There are only a handful who still use this very traditional method in Nuits. Ask the top growers in this region who is best in Nuits St Georges and Lecheneaut is on the tip of most tongues.*

**BEAUJOLAIS CRU RED A.O.C.**

SV = Single Vineyard DB = Domaine Bottled

**COTES DU LUBERON RHONE RED AND WHITE (SOUTH) A.O.C.**

**DOMAINE DE LA ROYERE**

*From her chic appearance and quietly spoken manner, it is easier to imagine Anne Hugues owner of Domaine de la Royere in her former guise of museum curator than vigneron. Focusing on blends of traditional grape varieties such as Grenache, Syrah and Mourvedre, Anne's philosophy is simple; low yields equal concentration of flavour. Concentration of flavour is very much the style of the Domaine, this combined with the very high quality of wine making has led to many accolades from the likes of Decanter Magazine. We were certainly amazed to find that these wines were not already imported into the U.K. and were very glad that we had found Anne first.*

197 Domaine De La Royere Viognier White 2009/10 ..... SV DB 8.59

198 Domaine De La Royere L'Oppidum White 2009/10 ..... SV DB 8.89

203 Domaine De La Royere Vieilles Vignes (old vines) Red 2007 ..... SV DB 9.98

204 Domaine De La Royere Quercus Red 2003/04 ..... SV DB 19.95

*Only made in small amounts, superb concentration, almost Amarone like. 18 months in new oak barrels.*

**COTES DU RHONE - RED (SOUTH) A.O.C**

SV = Single Vineyard DB = Domaine Bottled

210	Cotes Du Rhone Domaine des Chanssaud 2007/09 .....	SV DB	9.59
	<i>Produced from 50 year old vines this full bodied Cotes Du Rhone tastes like a miniature version of the great Chateauneuf du Pape (No. 218) from the same vineyard.</i>		
214	Vacqueyras Chateau Des Roques 2006/09 .....	SV DB	13.98
	<i>Vacqueyras is a less expensive but nevertheless worthy neighbour to Chateauneuf du Pape. Edouard Dusser is the president of the wine growers of Vacqueyras and Chateau des Roques is his impressive country house property. His red wine is a blend of Greenache, Syrah and Mourvedre and is matured in Cuves and Troncais oak for 3 to 6 months.</i>		
216	Gigondas Domaine du Grapillon d'or 2005/09 .....	SV DB	18.79
	<i>An exceptional wine, Bernard Chauvet produces strictly traditional strong deep Gigondas, aged for 18 months in large wooden casks before bottling. The wine is always at least 14% alcohol but has a voluptuous velvety taste that is irresistible.</i>		
218	Chateauneuf du Pape Domaine des Chanssaud 2003/09 .....	SV DB	19.95
	<i>Patrick Jaume produces intense, full bodied Chateauneuf du Pape and Cotes du Rhone. The great concentration of flavour undoubtedly comes from the fact that many of his vines are approaching 100 years old.</i>

*Founded in 1946 by Jean Ferraton, the estate, which became his passion has been passed from generation to generation. **SV = Single Vineyard DB = Domaine Bottled**

*As the more traditional wine areas of France such as Bordeaux and Burgundy have risen dramatically in price over the last few years, the various regions of the South of France have come into their own. Due to the hot summers they offer rich and full bodied quality wines at inexpensive prices.*

234	Fitou Domaine Carpy Les Pins Red 2007 .....	SV DB	7.98
239	Pic St. Loup Mas des Sources Red 2007 .....	SV DB	7.98

*Wines nos: 234 and 239 are produced under the "En Fermage" system. This is where an arrangement is made between a retired vineyard owner and a team of winemakers.*

*The winemakers have no interest in the property on the estate, their only concern is to rent top quality land to grow the best possible grapes to make wines of the highest calibre.*

*The system allows winemakers to scout for the most suitable vineyards and vines without the financial burden of a freehold purchase. The estate owner in turn receives an income for the rent of his land. Everyone is a winner!*

**COTEAUX DU LANGUEDOC - CHATEAU DE L'ENGARRAN A.O.C.**

*She is a scientist, a good cook and a self confessed tom boy yet Diane Losfelt along with her sister, Constance, who is best described as a bundle of infectious enthusiasm, produce a superb range, including a top draw rosé, of elegant feminine wines. The dynamic duo count themselves among the band of passionate winemakers transforming this region of France. Prestigious publications such as the "Hachette Guide" would seem to agree.*

*We were very impressed when we met young wine maker/owner "Andre-Jacques Arnaud". He seemed to be involved in every aspect of wine making on his estate (which has been in his family for over two centuries), he even designs the labels! Andre-Jacques meticulous vinification methods using selective picking from mature vineyards has resulted in red Corbieres of tremendous quality, which is confirmed by the impressive tally of medals won.*

#### WEINGUT ALFONS SEBASTIANI

##### *Village Wines Sole UK Importers*

*There are many German wines on the market and most of them serve as an excellent introduction to the joys of wine drinking, being light, medium dry, and low in alcohol but nothing more. What is not generally appreciated is that Germany also produces fine wines and, with a few exceptions, these are hard to come by. We are fortunate to have discovered a range of wines produced by the Sebastiani family at Mehring, which is between Bernkastel and Traben-Trarbach on the Mosel. The Sebastianis own approximately 10 acres of vineyards. They sell only wine from these vineyards many of which are **dry** in style. The care that they take and the experience that they have gained since 1300, when their family first settled in Mehring is reflected in the magnificent wines they produce.*

#### WEINKELLER LEININGERLAND – GRUNSTADT

##### *Village Wines Sole UK Importers*

*Only 12% of German Wine production is red wines, and this is generally consumed by the domestic market. The subject of red German wine has become something of a specialist field for Village Wines. We have been very fortunate to have found Weinkeller Leiningerland, a small winery in the town of Grunstadt, just outside Heidelberg. Their wines are of the highest quality, winning many awards.*

*The grapes used mainly are Dornfelder and Spatburgunder, (the German version of the Burgundy grape Pinot Noir) producing wines that are refreshing, often light and show more of a medium fruity than tannic acidity. Try chilled.*

This cellar houses 25,000 American oak casks and they have a further 2 million maturing bottles. For the red wines they use principally the Tempranillo grape with smaller quantities of Garnacha, Mazuelo and Graciano.*

*The ultimate Rioja and the result of more than 60 years which the Muga family has dedicated to the painstaking nurturing of their hand made wines. Traditional Riojan wine making techniques prevail, typified by their long ageing process, which is undertaken exclusively in oak vessels. Not even a filtering machine is found on the Bodegas, since the fining is still done using egg whites.*

544	Reserva Familia Pedro Ximenez Bodegas Malaga Virgen Sweet desert wine 50 cl .....	12.98
-----	---	-------

*Pedro Ximenez grapes were first grown in the area of Malaga. Only later were they introduced into the neighbouring sherry area of Jerez. This winery, one of the finest in Malaga, was founded at the end of the 19<sup>th</sup> century. Today the Bodegas works with the latest technology, still producing wines of unrivalled quality and style and still using the old fashion method of sun drying the grapes to concentrate the sugars. This wine, fortified in the same way as sherry, has intense rich sweet flavours, elegant, with a velvety finish.*

**PORTUGUESE WINES**

*Are you short of vintage port? We are pleased to announce we have strengthened our selection of vintage ports considerably, and now have an interesting range dating back to 1980. Of the undeclared vintage ports listed, the traditional late bottled vintage, Warre's (No. 569) deserves a special mention. This port is sometimes wrongly put into the late bottled vintage group as just another two dated premium wine. Wrong! This is a class wine of a good single year aged in bottle to crust, and behaves in a similar manner to declared vintage port. The only difference is, that it has been kept two years longer in wood and that it is cheaper. Is that bad? Also deserving of a special mention are the vintage ports from the single vineyards of Bomfim and Guimaraens, owned by Dows and Fonseca respectively (Nos. 570 and 571). These Fine Wines offer exceptional value for money (especially when considering the sharp increase in the price of the declared vintage wines) with a quality that can surpass many a declared vintage port.*

**DECLARED VINTAGE AND OTHER BOTTLE MATURED PORT**

**N.B. These wines require decanting**

565	Dows Fine Crusted Bottled 2003.....	19.89
	<i>'Crusted Port' is a fine blend of different vintages, that is bottle matures in the same way as the very best declared vintage ports. It has been a unique part of the UK port trade for centuries, offering superb quality and value for money, just compare prices with a declared vintage. There was a danger that this style would disappear forever. The good news is, however, that the Port Wine institute has agreed to its continuation in small quantities.</i>

**MADEIRA**

**BLANDYS - FOUNDED 1811**

*John Blandy first set foot in Madeira in 1807, when, as a 23 year old soldier he was posted to the island. As a quartermaster the young John Blandy came into contact with local wine merchants and it was from here that his interest in wine began. He was to return in 1811 to found the company that still bears his name. Since then five generations of the family have nurtured and developed Blandy's into one of the most highly reputed Madeira houses.*

## LEBANESE WINES

*Chateau Ksara is the oldest (dating back to the Jesuits of 1857) and yet the most modern winery in the region. The Bekaa Valley's unique dry climatic conditions means that the grapes are grown almost organically, as herbicides are not required at all, as diseases seldom strike the vines.*

*A complex blend of Cabernet Sauvignon, Syrah and Cinsault grapes.*

## NORTH AMERICAN WINES

### CALIFORNIAN

630 Sutter Home Zinfandel White (Blush) Rosé 2010 ..... 6.29

*The history of Sutter Home in the Napa Valley, California, dates back to 1874. Now owned and run by the Trinchero family, maintaining the philosophy 'a great product at a fair price' Sutter Home was responsible for establishing Zinfandel as a varietal capable of producing premium wine, and creating White Zinfandel.*

634 Cline North Coast Viognier White 2010 ..... DB 10.98

*Fred Cline's estate has become outstandingly good at the production of all things Rhone like. Magnificent old pre-phylloxera Rhone varietal vines prevail in the vineyard, creating rich complex reds and clean, fresh whites. To lessen the reliance on pesticides, vineyard development has gone hand in hand with an increasing concern for sensitive farming practices, that go way beyond the industry's standard of organic.*

### OREGON

640 Duck Pond Pinot Noir Red 2009 ..... DB 19.89

*Duck Pond Cellars is a family winery which owns and operates 340 acres of vineyards in Salem, northern Oregon.
